PROFESSIONAL SUMMARY

Computer Science student specializing in Front-End Development, proficient in HTML and CSS and actively learning JavaScript. Draws on a strong academic foundation in OOP, data structures, and algorithms to build clean, responsive web interfaces. Seeking an entry-level role or internship to contribute to real-world projects and accelerate technical growth.

SKILLS

- **Programming & Markup:** HTML5, CSS3, JavaScript (ES6+), Java, Python
- **Concepts & Tools:** Object-Oriented Programming (OOP), Data Structures, Data Analysis
- **Soft Skills:** Time Management, Teamwork, Problem Solving

PROJECTS

Personal Portfolio Website *Personal Project*

- Designed and developed a fully responsive, mobile-first personal portfolio to showcase front-end projects, technical skills, and learning journey, with a focus on performance and accessibility.
- Structured the site with semantic HTML5 and clean CSS3 layouts, and optimized it for fast load times and smooth scrolling across all devices.
- **Tech Stack:** HTML5, CSS3, JavaScript (ES6+)
- **Live Demo:** bodda5501.github.io/Portfolio | **Source Code:** github.com/bodda5501/portfolio

User Authentication Interface (Login Page) *Academic Project*

- Designed and developed a fully functional user authentication interface.
- Built a clean structure using HTML5.
- Styled using CSS3 for a responsive layout.
- Implemented input validation using JavaScript.
- **Live Demo:** bodda5501.github.io/loginPage | **Source Code:** github.com/bodda5501/loginPage

EDUCATION

Bachelor of Computer Science | Culture & Science City (CSC) **Expected Graduation: 2028**

- **Core Coursework:** Data Structures, Algorithms Analysis and Design, Object-Oriented Programming (OOP), Introduction to Database, and Software Engineering I.

TECHNICAL TRAINING

Technical Training Courses | Culture & Science City (CSC)

- Completed courses in Python I, Python II, Data Analysis, and Problem Solving with C++.
